Skills

React.js, Redux, JavaScript, Python, HTML5, CSS3, SQL, postgreSQL, Heroku, Flask-SQLAlchemy, Docker, Adobe Photoshop, Adobe Premiere Pro, Adobe Lightroom, Adobe Illustrator

Projects

Starter   [live site](#) | [github](#)
React / Redux , JavaScript , Python , postgreSQL , Flask-SQLAlchemy , CSS3 , Adobe Photoshop , Docker , Heroku
Starter is a recipe website devoted to sourdough bread. Inspired by [seriouseats](#)
- Utilized **React and CSS3** to design an *accessibility-focused* user interface/user experience (UI/UX)
- Implemented a **Redux** store to ensure a *consistent*, *maintainable*, and *easily scalable* data state
- Implemented **Docker** containers paired with **Github Actions** to automatically deploy to **Heroku**, ensuring *continuous production-level testing*
- Created *custom logo and animations* using **Adobe Photoshop and CSS3**

TaskRat   [live site](#) | [github](#)
React / Redux , JavaScript , Python , postgreSQL , Flask-SQLAlchemy , CSS3 , Adobe Photoshop , Docker , Heroku
TaskRat is a clone of [TaskRabbit](#) with a post-apocalyptic twist. Inspired by the Fallout video game series
- Worked with a small team to design and implement a *customized database structure* using **Python, Flask-SQLAlchemy, and postgreSQL**
- Creatively implemented **React and CSS3** to ensure a *fun, fluid, and easily accessible* UI/UX

Screamium   [live site](#) | [github](#)
React / Redux , JavaScript , Express , Sequelize , CSS3 , Adobe Photoshop , Node.js , Heroku
A spooky clone of [Medium](#). Share your favorite horror stories here.
- Leveraged **Redux** to build an *easily scalable and maintainable* data store
- Designed a *user-friendly UI* using **Adobe Photoshop, CSS3 and React components**

Experience

Sales Associate | October 2021 - Feb 2022
REI
- Provided **friendly and efficient** assistance to customers choosing gear for their next outdoor adventure
- Processed and merchandised product as it arrived, directly handling up to **$10,000 of product** daily

Outdoors Guide | May 2021 - September 2021
Quest Expeditions
- Provided a fun, safe, and memorable trip down the Ocoee River, often managing up to **20 guests a day**

Production Baker | October 2020 - May 2021
Bread and Butter
- Worked with a small team to produce **100+ sourdough loaves** daily, approximately **$2,000 of product**
- Trained new team members in the ins-and-outs of sourdough, with emphasis on being **efficient and effective**

Education

App Academy | Spring 2022 | Online
Immersive software development course with focus on full stack web development

University of Oklahoma | Spring 2018 | Norman, OK
School of Visual Arts, BFA of Art Technology
